

TERMINAL

Introduction

TERMINAL is a decentralized cryptocurrency platform based on sovereign blockchain, Binance Smart Chain (BSC). TERMINAL is an advanced cryptocurrency with the features of transparency, security, fast and cost-effective peer-to-peer transactions. TERMINAL is an environmental & eco-friendly platform for the end users, modern technology-based cryptocurrency on Binance smart chain. TERMINAL has the potential of cryptocurrencies used as a peer-to-peer (P2P) digital currency in the future that will enable instantaneous, near-zero cost payments to anyone in the world. TERMINAL has developed TERM smart wallet for fast and secure transactions with the acceptance of BNB and USDT.

Vision

Our vision is to create the next-generation service through a decentralized (noncustodial) marketing platform to give every single person in the world an equal chance to be successful. We aim to offer a new and reliable system based on Binance smart chain technology for facilitating fast, secure, transparent, environmentally friendly, cost-effective transfer as a peer-to-peer Transaction.
